SKILLS

- Timeline estimation
- Agile development methodologies
- Interface design and implementation
- Data structures and algorithms
- Mobile application development
- Test automation
- Code debugging
- Timeline coordination
- Product management
- Proficient in HTML
- Development lifecycle management
- Architectural pattern development
- Technical design documentation
- Software debugging
- Application security
- Microservice design
- Software architecture design
- Automated testing
- Product development
- Version control systems
- Technology integration
- JavaScript expert
- Programming
- .NET development
- Flash and actionscript
- Performance optimization
- Git proficiency
- Rapid prototyping
- Cloud computing
- Software development
- User acceptance testing
- Object-oriented programming
- Best practices implementation
- RESTful services
- Code review
- Continuous integration systems
- Customer-oriented
- Technical writing
- Cloud-based storage
- SQL integration
- Application programming
- Problem-solving

- Cross-functional collaboration
- Library design
- Web application development
- Technical analysis
- Project coordination
- Self-starter
- Data structures
- Code versioning
- User interface design
- Cybersecurity best practices
- Machine learning
- Program coding
- API integration
- Testing and debugging
- Application development
- Web security
- Diagnostic automation
- Technical consulting
- DevOps principles
- Documentation management

- Microsoft ASP.NET
- SQL
- Technical support
- User experience design
- Project management
- Virtualization
- API design
- Full-stack development
- Hardware and software installation
- Project oversight

PROFESSIONAL SUMMARY

A skilled developer in many modern web development technologies such as HTML, CSS, JavaScript, ECMAscript, Jquery, React, Node, Next, Apollo, GraphQL, WordPress, PHP, MVC, C#, .net, SQL, MySQL, MSSQL, and many more. L. Bowman has a long history of completed projects with major goals met on time, and on budget. Communication is also a specialty, with radical candor used whenever possible, as well as NVC.

Detail-oriented, organized, and meticulous employee. Works at fast pace to meet tight deadlines. Enthusiastic team player ready to contribute to company success.

WORK HISTORY

SOFTWARE DEVELOPER III 06/2022 to 08/2023
Prodigy Games

- Senior developer on a team of skilled live-ops game developers
- Pixi.js, Typescript, Linux Shell Scripting, Tortoise SVN, Git, Github, Github Actions, Custom Editor Development, Photoshop, ImageMagick, and more
- Above technologies were leveraged to swiftly create new features, enhancing user retention

- Soft skills such as communication and documentation writing used to streamline the process of art integration into the live-ops MMORPG game
- Collaborated on stages of systems development lifecycle from requirement gathering to production releases.
- Participated in software field testing to verify performance of developed projects.
- Updated old code bases to modern development standards, improving functionality.
- Translated customer requirements into written use cases.
- Conducted data modeling, performance and integration testing.
- Coordinated deployments of new software, feature updates and fixes.
- Proved successful working within tight deadlines and a fast-paced environment.
- Corrected, modified and upgraded software to improve performance.
- Documented software development methodologies in technical manuals to be used by IT personnel in future projects.
- Translated technical concepts and information into terms parties could easily comprehend.

WORDPRESS / .NET / DRUPAL WEB DEVELOPER 06/2017 to 06/2022
Corus Entertainment

- Worked in Agile and Kanban teams using CI/CD
- Created new features for Corus' TV and Radio properties, meeting and exceeding regulatory requirements
- Exceeded regulatory accessibility requirements at every step, employing tools such as SiteImprove and the WCAG documentation
- Improved audience retention for properties such as Big Brother Canada via interactive websites, allowing the audience to participate in the show
- Coded websites using HTML, CSS, JavaScript, and jQuery languages
- Provided front-end website development using WordPress, Hubspot, and other editing software
- Planned website development, converting mockups into usable web presence with HTML, JavaScript, AJAX, and JSON coding
- Adhered to SEO best practices while designing sites
- Engaged with clients to plan and optimize site issues and queries.
- Ran debugging tools to eliminate flaws and glitches prior to publishing
- Oversaw technical issues and troubleshooting requests to resolve user problems
- Improved Time to Market by over 50x for all digital TV and radio station properties
- Github Actions development for CI/CD improved deployment process and halved development and maintenance time for plugin upgrades (80 brands!)
- Github Actions for automatic version and dependency control
- Reduced review time
- Reduced errors which made it to the customer

FRONT END WEB DEVELOPER 01/2015 to 01/2017
SERMO (WorldOne)

UI DEVELOPER 03/2014 to 11/2015
Workopolis

FREELANCE WORDPRESS DEVELOPER 01/2013 to 01/2014
The Secret Location

WEB DEVELOPER 01/2011 to 01/2013
